#### **DETAILED ACTION**

#### Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 09/10/2007 has been entered.

## Information Disclosure Statement

2. The information disclosure statement (IDS) submitted on 10/16/2007 is being considered by the examiner.

## Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

- 3. Claims 1-13 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. As to claims 1-13, Applicant in the preamble of the claim recites "to generate a preamble sequence to decrease a peak-to-average- power ratio", however in the body of the claim Applicant fails to disclose how the PAPR has been decreased.
- 4. Claim 5-7 recite the limitation "the one orthogonal frequency division multiplexing symbol period". There is insufficient antecedent basis for this limitation in the claim.

Application/Control Number:

10/724,666 Art Unit: 2611

# Allowable Subject Matter

5. Claims 1-13 are rejected under second paragraph of 35 U.S.C. 112, but would be allowable if rewritten in a form to overcome the above rejection.

The following is a statement of reasons for the indication of allowable subject matter: a comprehensive search of prior art of record failed to disclose, either alone or in combination, a method to generate a preamble sequence to decrease a peak-to-average power ratio through at least two antennas in an orthogonal frequency division multiplexing communication system having a plurality of subcarriers, the method comprising the steps of: generating a first short preamble sequence with elements corresponding to the plurality of subcarriers, wherein data other than null data is inserted for elements associated with a subcarrier identified by a unique number that is an even number; generating a second short preamble sequence with elements corresponding to the plurality of subcarriers, wherein data other than null data is inserted for elements associated with a subcarrier identified by a unique number that is an odd number; and generating a preamble sequence in a time domain by transforming one of the first and second short preamble sequences according to a transmission rule by using an inverse Fast Fourier transform.

#### Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure (US 2003/0026295) and (US 2003/0218973).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Leila Malek whose telephone number is 571-272-8731. The examiner can normally be reached on 9AM-5:30PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Mohammad Ghayour can be reached on 571-272-3021. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
